

Çavuşoğlu Mah. Görkemli Sok. No:12 Kartal, İstanbul
System Hydraulic Car Lift with Cover

Construction year : **2018**

Employer : **Perspektif Yapı** Contractor: **Parkolay**

Architect : **Brigitte Weber Architects**

Capacity : **3000 kg**

Model : **Parkolay PHP 222C**

Application : **Residential - Permanent User**

As architect and property owner request, It is possible to provide access to parking area at property's basement with car lift without using a ramp or an elevator room. We provide a pleasant parking experience within garden natural appearance via **Parkolay PHP 222C Hydraulic Car Lift** with cover. Cover surface on a level with floor was covered with the same material suitable for the existing garden landscaping. Safe operation with electronic sensors and isolation with drainage channels around the cover were provided. Successful architectural and engineering solution were performed with system that has CE and 2006/42 / EC compliance certification.
